The Group comprises 183 independent local Dutch Rabobanks, a central organisation (Rabobank Nederland), and a large number of specialised international offices and subsidiaries.

The Rabobank Group has the highest credit rating (AAA), awarded by the well-known international rating agencies Moody's and Standard & Poor's. In terms of Tier 1 Capital, the organisation is among the world's fifteen largest financial institutions.

Profile & values

Rabobank Group is a full-range financial services provider that operates on cooperative principles. Its origins lie in the local loan cooperatives that were founded in the Netherlands nearly 110 years ago by enterprising people who had virtually no access to the capital market.

Keypoints

One of Rabobank's core objectives is to create the highest possible customer value. Customer value is reflected in the degree of customer satisfaction and loyalty. Rabobank is critical of itself and is keen to learn from clients what it does well and what could be improved.

Strategy

Sustained autonomous growth is a leading factor in the strategic course that Rabobank Group aims to steer in the coming years.

Corporate Social Responsibility

Rabobank is a global leader in sustainability-oriented banking with a focus on renewable energy, biofuels and clean technology. New products, such as the Robeco Clean Tech Fund, the Dutch climate mortgage and the Dutch credit card with climate contribution testify to this. The same applies to the majority stake that Robeco acquired in the SAM Group. SAM is known worldwide for its leading

role in research and investment in businesses at the forefront of CSR.

Sponsoring

Rabobank is the largest sponsor of sport and culture in the Netherlands. Rabobank has selected three branches of sport to focus its sponsorship activities on: cycling, equestrian sports and hockey. Cultural sponsorship provides excellent opportunities for demonstrating Rabobank's versatility and social involvement.

"We are proud to be one of the world's most sustainable banks"
